*This sample plan reflects the expectation that a student will take a minimum of 9 credit hours per semester. Students, especially those on fellowships and those pursuing graduate certificates, may be advised to exceed the 9 credit hour minimum. Summers usually include fieldwork, for which students can get credit through AMS 7940 (Archaeological Methods). It is also expected that students will spend a year abroad on external fellowships: year 4 for students wishing to join ASCSA; year 5 for students applying for a Rome Prize or a Fulbright.
